Serial No.: 09/808,484  
Docket No.: MIO0064PA

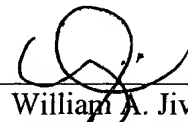

Enclosed is a declaration under 37 CFR 1.131 (along with Exhibits A-E), which substantiates that the invention was reduced to practice prior to the filing date of the Shimizu et al patent. As such, the Shimizu et al patent is not prior art and cannot form the basis for a rejection under §103. Accordingly, before the recited invention, one skilled in the art would not have been provided with the teaching, suggestion, or motivation to modify the device of Hong with a sloped isolation trench as asserted by the Examiner. Therefore, Applicants respectfully request withdrawal of all the obviousness rejections to the claims.

#### CONCLUSION

Applicants respectfully submit that the present application is in condition for allowance. The Examiner is encouraged to contact the undersigned to resolve efficiently any formal matters or to discuss any aspects of the application or of this response. Otherwise, early notification of allowable subject matter is respectfully solicited.

Respectfully submitted,

SCHAEFF, L.L.P.
